   B. Resolution 32 – Amendments to NORCOM Bylaws
      An Agenda Summary was provided to Board members prior to the meeting in order to explain the proposed changes to the NORCOM Bylaws. Bob Van Horne made a motion to approve and adopt Resolution 32. Motion carried.

6. New Business
   A. 2011 Proposed Budget Recommendation
      Chris Fischer explained that the purpose of the presentation was to go over the 2011 Budget packet that was provided to Board members the previous week, and also to present a staff recommendation on the 2011 Budget, as requested by the Governing Board Chair and Vice Chair. Chris provided an explanation of scenarios regarding service level impacts for a baseline (no increase from 2010) budget, a decrease from the baseline budget, and an increase to the baseline budget. These scenarios were presented to the Joint Operations Board at the June meeting and the recommendation from the Joint Operations Board was for a 3% increase to the
baseline budget. Chris went on to describe recent unanticipated increases to the budget, including increases to medical premiums, unemployment insurance costs, and salaries to offset CAD training costs. Discussion followed.

NORCOM’s staff recommendation to the Board included supporting the reductions in the operating budget which are necessary to accomplish a budget that reflects no increases above the 2010 Operating Budget and allows for the addition of 3 FTE’s and associated position equipment to complete full time staffing of the Data Service Position. The Board, per the NORCOM ILA, must approve the 2011 Budget at the August meeting based on the information provided to them.

Rich Conrad requested that NORCOM staff start with the 3% increase to the baseline budget and develop the details of the different increases showing the impact to the budget and service levels, to present at the August meeting, so that each proposal can be voted on if necessary.
